

Allied International Resources (USA)

Rough-Tex Non-Skid Platform Surfaces

**SPRINGBOARDS
AND MORE**

A Division of DIVE Cincinnati, Inc.

Available in Three Styles

- 2-Ply Black
- 2-Ply Tan
- 3-Ply Black

- Springboards and More has supplied Rough-Tex for the 2004 and 2008 Olympic Games, 2003 Pan Am Games, 2008 & 2009 World University Games, and well known aquatic facilities such as Ohio State, Stanford, Purdue, Arizona State, and the International Swimming Hall of Fame Pool.
- 2-Ply and 3-Ply Black Rough-Tex is constructed of general purpose SBR rubber. 2-Ply Tan Rough-Tex is manufactured using pure gum rubber. All available Rough-Tex surfaces have nylon backing, which is well suited to an aquatic environment.
- 2-Ply Black Rough-Tex has a thickness of 17/64 inch (6.7 mm). 2-Ply Tan Rough-Tex has a thickness of 9/32 inch (7.1 mm). The 3-Ply Black Rough-Tex has a thickness of 21/64 inch (8.3 mm).
- Rough-Tex Platform Surfaces are easily installed using any of a number of readily available, non-water soluble contact cements.
- 2-Ply Black Rough-Tex is the most widely used platform surface in the world today, and is usually available for immediate shipment.

Allied International Resources (USA) is the sole dealer of Rough-Tex Platform Surfaces, covering China (including Taiwan, Hong Kong, Macao) and South East Asian areas.

Springboards And More is the world's leading supplier of "Rough-Tex," the most preferred non-skid diving platform surface in use today!
